Call for Papers

**THE INTERNATIONAL JOURNAL OF ECONOMIC SCIENCES
 AND APPLIED RESEARCH**

The International Journal of Economic Sciences and Applied Research is a blind peer-reviewed, scholarly journal devoted to publishing high-quality papers and sharing original economics research worldwide. It intends to serve as an outlet for theoretical and empirical research in all areas of economics. These include, but are not limited to the following:

- Economic Theory and Politics
- Micro- and Macro-economics
- International economics
- European economics
- Regional economics
- Public economics
- Financial economics
- Business Management
- Business Informatics
- Accounting and
- Mathematical methods for economics.

Papers in other sub-disciplines of economics (e.g., labour, public, money, industrial organization, health, environment and history) are also welcome if they contain international or cross-national dimensions in their scope and/or implications. The Journal especially encourages the submission of articles, which are empirical in nature, or deal with issues of open economy macroeconomics and international finance.

Theoretical work submitted to the Journal should be original in its motivation or modelling structure. Empirical analysis should be based on a theoretical framework, and should be capable of replication. It is expected that all materials required for replication (including computer programs and data sets) should be available upon request to the authors.

The International Journal of Economic Sciences and Applied Research is published simultaneously online (www.ijesar.org) and is printed in 1.000 copies. The copies are dispatched in Universities and libraries all over the world. and on a printed form at least twice a year by the Kavala Institute of Technology.

Prof. Dr. Anastasios Karasavvoglou – Editor-in-Chief
